## **Important Product Information**

### **Wireless Connectivity**

SONY provides wireless connectivity at no additional cost to you for certain activities in connection with the content service provided by SONY. You may be charged a fee for wireless connectivity for use outside of the United States, local connectivity or your use of other wireless services on your product, such as web browsing, should those services be available. You will be notified of the current fees for such services through the Reader™ Store. SONY reserves the right to discontinue wireless connectivity at any time or to otherwise change the terms for wireless connectivity at any time, including but not limited to the amount and terms applicable for wireless connectivity charges. SONY reserves the right to limit the number and size of data files that may be transferred using the wireless connectivity.

You agree that you will only use the wireless connectivity provided by SONY in connection with the content service that SONY provides for your product or as expressly permitted by Sony. You may not use the wireless connectivity for any other purpose.

Your use of the wireless connectivity may be limited if your product is located in any area without applicable wireless service coverage, and you may not be able to use some or all of the wireless services, including the content service. SONY is not responsible for the unavailability of wireless connectivity or any interruptions of wireless service.

## **Safety Information**

- A SIM card is factory installed. Please do not remove the SIM card.
- Wireless connectivity is only available in the service coverage area. Connectivity may vary.
- Turn off the wireless feature when not in use.
- Turn off the wireless feature when you are in a location in which radio communications are prohibited. When you are in such a location, you must obtain permission from the appropriate authorities before enabling the wireless feature of this device.
- Turn off the wireless feature in health care facilities where any regulations posted in such areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be effected by radio frequency (RF) energy which is generated by wireless communication.
- Federal Aviation Administration (FAA) and Federal Communications Commission (FCC) regulations prohibit using the radio of wireless devices while in the air. Turn off the wireless feature before boarding an aircraft.
- If you use any personal medical device, consult your physician or the manufacturer of your device to determine whether it may be affected by RF energy.
- Use the supplied AC adapter. Do not use other AC adapter.
- Refer to the User Guide for more about safety information.
